

NBA OFFICIATING Last Two Minute Report

Below is the league's assessment of officiated events that occurred in the last two minutes of last night's games which were within five points at the two-minute mark (and during overtime, where applicable). The plays assessed include all calls (whistles) and notable non-calls. Notable non-calls will generally be defined as material plays directly related to the outcome of a possession. Similar to our instant replay standards, there must be clear and conclusive video evidence in order to make a determination that a play was incorrectly officiated. Events that are indirectly related to the outcome of a possession (e.g., a non-call on contact away from the play) and/or plays that are only observable with the help of a stop-watch, zoom or other technical support, are noted in brackets along with the explanatory comments but are not deemed to be incorrectly officiated. The league may change its view after further review. If you have any questions, please contact the NBA Communications Department.

Q4	00:04.3	Turnover: Traveling	Shelvin Mack	Dwyane Wade	IC
Comment: As Mack (MEM) is in the air, defender Wade (MIA) swipes down and makes contact to the ball. The RHH camera angle shows that as Mack begins to return to the floor without losing control of the ball, he purposely puts the ball to the floor as if to start a dribble. Once the ball hits the floor and Mack regains possession, officials blow their whistle and rule a jump ball. However, since Mack purposely puts the ball to the floor, he may not be the first to touch the ball and therefore a violation, not a jump ball, should have been called and the ball awarded to Miami.
