

NBA OFFICIATING Last Two Minute Report

Below is the league's assessment of officiated events that occurred in the last two minutes of last night's games that were at or within three points during any point in the last two-minutes of the fourth quarter (and overtime, where applicable). The plays assessed include all calls (whistles) and notable non-calls. Notable non-calls will generally be defined as material plays directly related to the outcome of a possession. Similar to our instant replay standards, there must be clear and conclusive video evidence in order to make a determination that a play was incorrectly officiated. Events that are indirectly related to the outcome of a possession (e.g., a non-call on contact away from the play) and/or plays that are only observable with the help of a stop-watch, zoom or other technical support, are noted in brackets along with the explanatory comments but are not deemed to be incorrectly officiated. The league may change its view after further review. If you have any questions, please contact the NBA [here](#).

Q4	01:08.0	Instant Replay: Support Ruling			IC	Video	
Comment:	Per Rule 10.II, a player in control of a dribble may not step out of bounds and be the first player to touch the ball after re-establishing position inbounds. The referees deem that Murray (SAS) controls his initial dribble, but deem him illegal (and blow the whistle) once his foot touches the baseline (even though he is not in contact with the ball), rather than when he illegally touches the ball upon re-establishing inbounds. Accordingly, the whistle should have been deemed an inadvertent whistle and possession should have been given to SAS.
